1. Company Overview

Company Name: KAOS (a C51 Consulting Pty Ltd company)

Website: https://kaos-os.ai

Tagline: The AI Orchestration Platform for Enterprise.

Boilerplate (Short): KAOS is the AI Orchestration Platform for Enterprise. We provide a unified platform to connect any tool, automate any process, and govern every AI-driven action, bridging the critical execution gap between AI potential and business outcomes.

Boilerplate (Long): KAOS is the AI Orchestration Platform for Enterprise, designed to solve the growing problem of tool fragmentation and failed AI adoption. In a world where the average enterprise team uses over 17 different applications, KAOS provides a single, powerful abstraction layer to orchestrate complex workflows, integrate disparate systems, and govern AI agents at scale. By moving enterprises from managing chaos to executing with precision, KAOS helps businesses unlock the full potential of their AI and automation investments, driving significant improvements in efficiency, speed, and compliance.
